HOLMAN'S
Liver and Stomach Pad
Cures without Medicine.

An efficacious remedy for all diseases having their origin in a torpid liver and diseased stomach, has been discovered in the Holman Liver Pad. The inventor of this boon to suffering humanity was himself a victim of chronic disease, and having tried medicines in vain, conceived the idea of an external remedy. The Pad applied immediately over the vitals and the centre of the nervous system, absorbs all poisons and diffuses a vegetable tonic throughout the entire system through the pores and by means of the circulation. The torpidity of the liver is thus removed, the tone of the stomach restored, and the organs resume their wonted functions. Finding that the principle worked successfully in his own case, the discovery was made public, and thousands have since tried it with the most beneficial results. The names of a large number of well known citizens in all parts of the country, who owe their restoration to health to the Liver Pad, attest the genuineness of this great invention. It requires no internal medicines; it is simple, painless, and rapid in its operations, applicable to children as well as adults of both sexes, and in case there should be no disease in the system, remains passive, doing no harm. Persons who are incredulous as to the value of this Pad, will do well to send for a pamphlet to the Agency.

SUNDAY, APRIL 4, 1880.

Associated Press Telelegram
HAVAS' AGENCY

London, 2nd.

The elections for new House of Commons, held yesterday, were hotly contested, and not very favourable for the Conservatives. The final result is not yet known, only that in 268 electoral districts being known. Of these the Liberals have wrested 32 seats from the Conservatives, and it is considered probable that the former will have a majority in the new Parliament.

THE FIRST SOD.

Next week, amid the dismal hum of political strife, a sound, faint and modest in itself, but destined to have a powerful echo in the future, will be heard in Plaza Victoria. The spade (it ought to be tipped with gold) will turn the first sod of earth to make way for the first stone of the Buenos Aires Exhibition of 1880; and the thud of that spade and ring of the trowel that initiates so momentous a building, may well be considered as the protest of Peace and Industry at the renewed political alarms which threaten to drown the first sound betokening the birth of a great and patriotic enterprise. It is truly typical of the strong social contrasts which this country presents, that, on the eve of commencing a work which promises such great material and moral advantages to the nation, the air should be filled with rumors of political assassinations, revolutions and all the baneful tokens of civil discord. But let us hope that this fresh outburst of political passion and rancour will stop short of fatal extremes, although the news of yesterday does not look like it.

The turning of the first sod of the Buenos Ayres Exhibition will be a simple ceremony. There will be no pageant; no display of flags; no senseless shouting crowd, above all no attempt at fulsome speeches full of that nauseous mutual admiration so typical of this wondertul Nineteenth Century. The disciples of Industry and Labour go to work in different fashion; 'Deeds, not Words' is their motto.

The turning of this first sod is an event of more importance than any but those patriotic and far-seeing men who have promoted this Exhibition imagine. It means a closer connection of this country with the great nations of the earth, and increased respect on their part towards it; for, much of the prejudice which exists in Europe against everything South American, undoubtedly springs from sheer ignorance of the manners, customs and idiosyncracies of its peoples: The Argentine Republic, though, perhaps, least of all deserving of this unfounded prejudice, has to bear its share of it; and any event so highly calculated to remove this rooted European hallucination as the approching Exhibition is, should be hailed with enthusiasm by the whole nation and written down as a red-letter epoch in its annals.

It is unreasonable to expect that we shall have any great number of European visitors at this our first International Fair, but those who will come will be of the right sort, the representatives of Trade and Industry, whose presence will mean more for the material future of this country than if Kings and Princes were to surround the President of the Republic when he opens the Show. One crowned head, and that perhaps the wisest, certainly the most learned, of any that wear the diadems of the world, may be expected. His Majesty the Emperor of Brazil, the warmest friend that Science, Art and Industry have amongst the great ones of the earth, is expected to come, and the Imperial visitor may look for a right royal welcome, as he is held in the highest respect by the people of this, as of all other countries. But though European visitors may not be numerous, an enormous influx may be expected from the provinces and the sister countries of South America, and hotel and lodging house keepers may well look forward to an 'Agosto', although the Exhibition is to take place in September.

It is interesting to note the palpable proofs of the steady progress of this country, as seen in its Exhibitions. First came the Cordoba Fair, a mere domestic revision of the wardrobe of the intended 'debutante' in the Industrial world. Then the small Exhibition in this city, a private rehearsal, as it were, for presentation at the grand Drawing-room in Paris, and finally Argentina's most successful debut at Industry's gorgeous Palace in that Queen of Cities in the year 1878. Now it is Argentina's turn to receive in her own house; and, unless the manœuvres of the crack-brained politicians she has the misfortune to call her sons intertere with the fete, the success in store for her in her own home will be still more flattering than that achieved abroad.

There have been so many unavoidable delays in connection with the commencement of this Exhibition building, that a by no means small section of the public is apprehensive that the Palace will not be finished in time, and that foreign exhibitors and visitors will be disappointed, which would mean an utter fiasco. Even yesterday, when the work should have commenced, there was another postponement. Let there be no more. Let the Committee see that the works are inaugurated next week, in spite of wind, weather, wives, politics or anything else. There is an old proverb to the effect that 'delays are dangerous.' But we have faith in the Committee and the men of the Industrial Club. The whole country, which was either hostile or indifferent when they started their patriotic project, is now with them to a man.

Since the opening of the late Prince Albert's great work, the famous Crystal Palace of 1851, perhaps no Exhibition as yet held has been fraught with greater promise for a nation than this first effort of Argentina in the tournaments of international industry. We were present in boyhood at that incomparable Show in the Metropolis of the World 29 years ago, and the gorgeous scene has held its own in Memory's waste in spite of the attractions of its many successors in other countries; but we expect to witness in this city in September next a sight which, if less splendid than that with which the richest country in the world opened the era of Exhibitions, will surpass it in the interest which the first steps of a young nation in the difficult path of industrial progress must always awaken in those who wish it well.

LATEST FROM ROSARIO

(Our own Correspondent.)

April 2nd.

There is stagnation in the wheat and political markets. In the first because there is no more to be bought, and in the second because it is all cut and dried to cast the vote of this Department in favor of Gen. Roca. Our elected Deputies to Congress got the astounding number of 104 votes in Rosario; but they were sufficient. General Roca will probably poll quadruple that number, which will also be quite sufficient, as no contrary vote will be offered. We have thus arrived at the perfection of electoral suffrage. In this Department of Rosario, there are I should suppose, about six thousand legal voters. Just see how quietly our system works. Of these six thousand voters only 104 are required to leave their home and occupations to elect Provincial Deputies to Congress, and I suppose five hundred of them will be quite enough to secure the success of Gen. Roca. Is not this what may be called simple electioneering machinery? I commend our Santa Fe system to the rest of the Republic, although it is cheering to observe that most of the provinces are adopting the same simple and easily worked principles.

Our Provincial Bank paper is depreciating every day, and to an alarming extent. It is now from 26 to 27 discount for gold, and 20 to 20½ for Bolivian silver. The Bank emits notes in Bolivians: that is to say, it engages to redeem in Bolivian silver of the old type. This of course is impossible as the old 'cuatros' have mostly disappeared. The Balance sheet of 29th February shows an emission of $1,229,621 of inconvertible paper, with cash on hand of 163,000 in fuertes and 96,749 in Bolivians. Neither the Government nor the Municipality have diminished their debt. This, and an uneasy feeling in reference to political affairs, are causing the depreciation in the value of the paper. This uneasiness is daily increasing in all circles of the community. Were the Government to pay off even a part of its enormous debt, the Bank would recuperate its credit, but I fear we cannot hope for this, notwithstanding the very large revenue of the province.

I see that the splendid bulls imported by Messrs. Barnett and Crawford are to be offered for sale at auction on the 6th of this month. I hope to see a generous competition amongst our estancieros. It is seldom a like opportunity offers.

Our Spanish citizens gave a grand banquet in the Olympo Theatre, on Monday night, to their Minister, Mr Olin. A considerable amount was collected for the Spanish Hospital, Mr Casado, with his usual liberality heading the list with a thousand Bolivian dollars.

The very handsome gold medal, engraved by our intelligent artizan, Mr. Caccia, and subscribed for in Rosario, was presented to Mr. Carlos Casado the other day by his numerous friends. There is no man who better deserves such a demonstration. Mr Casado is a representative man of the first order. He represents progress in all its various phases; as a Banker, as a merchant as a Colonist, and Promoter of Industries, he deserves the gratitude of the community, while he earns our sympathy by his open-handed philanthropy. The merits of such men deserve to be acknowledged publicly.

I have before me the memorial of the Gefe de Policia. The number of evil-doers who had the gates of the jail opened for their reception during the year was 1,641. Although the Report pretends to give the nominal of crimes committed, it is impossible to make it out, as in one item it gives 145 'for diverse causes,' and a large number of criminals sent in from the camp with no crime specified. As I mentioned in a former letter, there are few grave offences: manslaughter, result of fighting with knives, 8; wounding from same cause, 98; robberies of all kinds, 95. The rest appear to be for trivial offences. I cannot make out how many actual murders were committed, for they are included in the eight cases of manslaughter. Our 'paisanos' settle all their quarrels with the knife. It should be one of the first duties of the authorities to teach them the proper use of their fists.

I said at the commencement of my letter that politics were stagnant; but there is something connected with politics that is awakening into activity. An armed force of this Department was despatched on Wednesday to the Arroyo del Medio. Commentaries run from mouth to mouth. There is a great apparent agitation amongst the officials, but nobody can tell what it means. The Gefe Politico was riding yesterday attended by a single soldier. He looked as serious as a Roman medal of Vespasian. The townspeople do not appear to be much affected. Business goes on as usual, and nobody seems to care where the authorities send their troops to. The papers say that the Government will mobilize the National Guards; but I cannot see the slightest reason for such an illegal act. It is supposed by some that the alarm has been caused by the organization of a Tiro Nacional in San Nicolas.

The country has suffered a great loss in the death of Mr. Aaron Castellanos, the founder of the first Argentine agricultural colony, that of Esperanza. He was a thorough representative man. He was the first to propose the Central Argentine, before Mr. Wheelwright took the work in hand. Latterly he was occupied in carrying out a plan for railways to the south of this province. The moles, such as they are, in Rosario owe their existence to his great spirit of enterprise. His active mind was always hatching some scheme of progress.

A CAMP TRIP.

In these days of steam a journey of sixty leagues is only a 'pasatiempo,' but when it has not to be done with the iron horse, but with real blood and bone brutes, affairs are somewhat changed, and the 'paseo' degenerates into a decided nuisance should your journey be hurried through, and all its jolts and pains condensed within the limit of twenty hours.

From Belgrano to Parque Station is a matter of some forty minutes in a carriage, if your horses are fairly good; thence to Mercedes by the Western Railway is not at all difficult, especially if you have taken the precaution to choose a comfortable carriage; for, strange though true, you can, even on the Western Railway, find some that are very far from comfortable. Once at Mercedes, a fairish breakfast at a resonable price is obtainable, and the 'mayoral' hurries you through your coffee, which, in this dustiest of towns, leaves an unpleasant sensation in the throat until you have left municipal bounds and have no throat left for any class of sensation except dust, and, with the perspiration caused by the heat, a little mud as a sort of 'chasse café.' It is now near noon, and away you go through quintas and chacras at full gallop, until the sheep begin to whiten the landscape and the camps are fairly green with sufficient pasture to ensure fat 'capones.' In the hurry of the journey you can form but general ideas of the country, but those formed by me were pleasant, and have left the impression of good camps and pleasant country towns, lots of rural wealth in the brute form, and some parts cultivated.

Arrecifes appears to be built on a sort of island, but as it was darkening fast into a sombre dusk when we arrived there, but little that is positive of its geography or topography can be mentioned; but away again, and now we are off for Pergamino; night has fairly set in, and those of the passengers who are not asleep can thank the jolting and the changes of horses for their wakefulness until 1 a.m. They are requested to alight in the Hotel de Paz de Pergamino, with an excellent appetite and a wholesome desire to go to bed. The hotel is very spacious and neatly kept, with a good table and a jolly host who waxes fat attending to his guests. This building is one of the best hotels that I have seen in any country town. The greater part of the upper story is devoted to the use of the club, and the spacious halls of which it is formed have an excellent look-out on two streets, which are, among the crooked streets of Pergamino, almost as straight as an average one. This is the only new town that I have yet seen which has escaped the tantalizing rectangular "regime" which is so much in use here, and it was really a pleasure to find a street which, having set out to follow a certain star, kept honestly on its course until it had completed a semi-circle, possibly full of short tangents, but, nevertheless honestly fought for. And then what a pleasure to find a romantic 'cul de sac.' Dumas would go mad with S.A. delight if he visited Pergamino. If its streets are not straight, its business is, and a very active and important trade is carried on. You continually find Irishmen in the streets and hotels and the Club, to which, thanks to the courtesy of the Juez de Paz, Sr. Vasquez, I had access. I had the pleasure of being introduced to several of them by Don Miguel O'Farrel and Don Ricardo Jacobs, who, together with Sr. Vasquez and several others, vied in attentions to make my stay in Pergamino pleasant.

The camps outside in direction towards Rosario are in capital order and nearly all wired in, sheep are fat, and the cattle and horses in excellent condition. The nature of the country is that of a flat high camp intersected by streams of permanent water. The grasses are of all kinds, some adapted for cattle and some for sheep, and it is generally wired off, so that each class may be kept on its own pasture.

Returning from the tour to B. Ayres, I came by way of San Nicolas, a town which in many respects could give a lesson even to Buenos Ayres. The camps through which we passed were covered with sheep, and my companion of diligence misery advised me that Don Manuel Campos had recently bought three quarters of a league of land in the sum of seven hundred thousand dollars m/c. Nearly all the land about here is now falling into the hands of Irishmen.

San Nicolas is the best paved town in the Republic, and its sidewalks are exceptionally good! (being all either of stone, natural or artificial, or else with valdosas) was my exclamation after about an hour's walk, and certainly, if all the rest be equal to the part traversed, it is so. But it appears to be prematurely old, without self help for its commercial interests. The scheme proposed some years ago by Mr Armstrong to build a tramway thence to Junin is not only a good investment, but for the town and port of San Nicolas an absolute necessity, and now more than ever, when it is threatened with the competition of Buenos Aires per Western Railway from Pergamino, and Rosario by the extension of same line. 'Quem Deus vult perdere prius quam dementat', and the good people of San Nicolas will certainly lose their trade and position if they do not put their shoulder to the wheel and help themselves.

Bah! it is 1 a.m. Good night.

EXPORT OF SOUTH AMERICAN LIVE STOCK.

Liverpool, Feb. 19th.

To the Editor of the *Standard*,

Dear Sir,

Having read in your Packet Edition, dated January 10th ult., an article on the above mentioned enterprise, wherein you express some doubts as to its ever becoming an established trade, I beg to supply you with my ideas on the subject, together with statistics of the development of the cattle trade carried on by the United States and Canada with this country.

Until 1875 the transport of North American cattle to England was looked on as an utter impossibility, but the high price of beef here induced a few speculative parties to try an experiment, which proved successful, yielding large profits. This satisfied them that the business was practicable, and seven of the large steamship companies had their vessels fitted up to meet the requirements of the trade, which has steadily increased, and which will be seen from the following table:—

Live stock landed at the port of Liverpool from United States and Canada—

	Head of cattle.	Sheep.
1875	908	—
1876	1,765	1,444
1877	10,671	7,892
1878	52,376	55,992
1879	50,641	110,623

The increase at London, Glasgow and Bristol is in like proportion.

As far back as 1871, an effort was made to ship cattle from the Plate but was discontinued until Mr. Casey's consignment of sheep arrived in May last year per S.S. Nestorian and which had to be taken to Glasgow to be landed, owing to the obstacles placed in the way of their being landed at Southampton or Plymouth This is greatly to be regretted, as likely to deter others from making a second attempt; at that time an effort was being made to curtail the American supplies in order to protect the landed interests in these countries, but as abattoirs have been erected at the various ports of debarcation for the slaughter of live stock arriving from countries scheduled under the Contagious Diseases Act, no objection can be made to the landing of any future arrivals from the Rive Plate. Now that

the system for carrying cattle and sheep is so much improved on all boats in the trade, many of which ply between here and Buenos Ayres, while the St. Laurence navigation is closed, it is to be hoped estancieros will be able to realize this enterprize. The passage could be made in about 24 days (a time often occupied by boats from Montreal to London) besides the navigation is better than in the North Atlantic, where rough weather is often experienced.

However, in order that estancieros might compete more successfully with North America, more care must be taken in improving the breed of cattle by importing short horn and Hereford bulls, and instead of letting them roam at large, enclose them in 'potreros' where they can be better attended to, and fattened with maize as in the States, which can be produced without much difficulty. Cattle attended to in this manner would be sure to meet with a ready sale in the markets and be much more remunerative than disposing of them to the saladeristas; there would always be abundance of native cattle for supplying the saladero establisments for making jerked beef, independent of improved breeds.

Sheep from the Province of B. Ayres would be also a good speculation, especially in the spring and until July, being the period when a scarcity usually exists here.

Australia has commenced sending us dressed beef and mutton under the refrigerator system; the first lot arrived at London last week in a perfect state of preservation.

Yours respectfully,
R. Bobbett and Co.

EDITOR'S TABLE.

Yesterday was certainly a day of 'novedades.' The first rumor whispered was that Colonel Lagos and Governor Muñeca of Tucuman had been murdered. The news came like a bomb-shell. Later it was said that Colonel Carabello had invaded the Banda Oriental and issued a gunpowder proclamation. It was also said that the Tiro Nacional men had been ordered under arms. Gold naturally rose on the Bolsa.

The sporting world is to a man and a lady ready to start for the Mercedes Races to-morrow. It will be the fullest meeting ever held there. Ladies are free to the Stand and all over the course. Special leaves Parque station at 8.10 a.m.

A young lady has attempted to commit suicide by drinking a potion of water mixed with matches. Happily the doctor came in time to save her. Love is the cause.

Another crime has been committed in our streets; two individuals attacked a certain Damaso Suarez, stabbing him mortally. Only for the presence of two gentlemen the murderers would have finished their job. Both murderers were captured.

Five Spiritualistic Societies in the city have resolved to amalgamate under the Joint-Stock Companies Act, Shares $5 m|c each, Limited. It this Company does not succeed in raising the 'D——posit,' or any other man under ground, then nothing or nobody still above the soil can do it.

The latest news from the West Coast is of another revolution in blessed Bolivia. We predicted a week ago that the outrageous raid on the property of the clergy and nuns would bring about this result.

The most fiery of the Tejedorista organs is still preaching 'blood and iron,' and intimates that the election of electors will not decide matters in the least; that the 12th of June will be an equally unimportant date, and that the real tug of war will only begin, in Congress, on the 12th August. Pleasant news this. Over four months more of turmoil and uncertainty. To put the finishing touch on this lively picture, it adds that all the National Guards of the Province (40,000 men) will be called out on the 12th inst, the day after the elections. God preserve the Republic!

There is a prodigious fuss going on about the approaching Centenary of the Introduction of Printing into Buenos Aires, which is to be celebrated by laying the first stone of a monument, for which $43,000 m|c. has been collected, $30,000 of it being from the National Government. The total amount subscribed does not argue the existence of any great enthusiasm on the subject. Many people say that it would be all the better for this country if it had never seen a printing press, as its political troubles, past and present, have sprung from too many newspapers. There is much truth in the remark. Still, Guttemberg must be honoured 'coute que coute,' but it does not look as if it were going to cost much.

As we anticipated, the owners of the tiny craft Leon de Caprera are making a fortune: The Boca people paid 70,000 m|c. to see her, and now she has been brought to the Paseo Julio, to enable the rest of us to see her. She is to take as full cargo across the wide Atlantic a splendid album, sent by the Italians of Buenos Ayres as a present to their distinguished countryman the Hermit of Caprera.

Many people will regret to hear that Captain Boyton, the famous swimmer is dead—started on his last swim across the Styx, with Charon as bottle holder.

A lady entering a tramway car a couple of days ago, was relieved of her heavy purse, containing $5,000 m|c. The fortunate pickpocket did the business admirably. Whilst lifting the little daughter into the tramway, he took the mamma's purse out of the bag.

The plans, surveys and budget of the Diamante works have been sent into the Finance Office. On approval of same the works will be immediately begun.

A high marriage in St. Crispin circles is announced. All the members of the great saint's guild will attend, and each present the bride with some little souvenir.

Count Patrick and his excellent company say farewell to the Buenos Ayres public to-night at the Colon Theatre. He is well worth seeing, and one of the best Wizards that has ever come here.

Mr. James Wilkes's project for an Argentine Steam Navigation Company, with no fewer than 36 steamers of 2500 tons each, has caused all the steamer agents and shipping men to gasp for breath. There is at present no void for this new gigantic company to fill, and in the present scientific days no enterprise can hope to succeed without the 'void to fill' clause. The public expect it, and abhor a vacuum as much as Dame Nature herself.

A Tory subscriber sends us the following anent the British people's 'William' from the *World*:—

"A good deal of attention has been attracted by a pamphlet just published, in the shape of a letter to Lord Rosebery, by a 'Scottish Liberal.' It is the first attempt at an analysis of Mr. Gladstone's career, in the region of domestic and foreign statesmanship, which has ever been made by a competent and moderate pen. Whether for closeness of argument, pregnant vigor of phrase, copiousness of illustration, or sincerity of sentiment, this production is equally remarkable. Amongst the propositions established by the writer are these: that, even as a financier, Mr. Gladstone's skill is shown almost exclusively in the art of withdrawing burdens, not meeting emergencies, and of making lucid statements of facts and figures; that since 1850 he has in foreign politics been the blind and consistent opponent of all at|which Lord Palmerston aimed and accomplished; that he has been regarded as the one English statesman who is thoroughly pro-Russian in his sympathies; that he assumes an air of infallible authority on 'guiding the State' in Europe, and, above all, in Oriental difficulties, without any special knowledge of foreign affairs, and with no other compass to steer by than the abstract principles of morality and the depth of his own emotional convictions. It is not likely that Lord Rosebery will respond to these appeals in the spirit 'Scottish Liberal' desires, but they suggest the decline of Mr. Gladstone's influence on his countrymen—the pricking of the great Gladstone bubble."

The *Deutsch La Plata Zeitung* is framing a new constitution for the Argentine Republic. It is to be hoped our colleague's constitution will meet all infirmities and breathe the genius of an Alberdi.

It is said now that General Campos will accept the mission to Entre Rios. It is only right that both Corrientes and Entre Rios should disarm. It is quite ludicrous to see these two provinces act as belligerent powers.

Next week our talented National Finance Minister leaves for the Interior. Three railway inaugurations take place this month, and Dr. Victorino de la Plaza superintends the Andine ceremony. A great many gentlemen in Buenos Ayres have been invited to attend the inauguration.

Doctors in medicine are following in the wake of doctors in law. A small bill has been presented to the Municipality for attending a little boy, injured by one of our city tramways; it only amounts to $93,000 m|c., and decimals. It is better to be a doctor than a Prime Minister.

Sr. Lamay, the indefatigable French fencing-master, gave a grand assault entertainment last night. Many officers of the army displayed their talents in the noble art.

A poor woman was found the day before yesterday lying in the Calle Bermejo, bathed in her own blood. She had been seen emerging from a kind of gin-palace, accompanied by two suspicious-looking individuals. The police are doing their best to find out the blackguards who committed the deed, but their whereabouts is a dream at the best.

D. Vicente Lopez, President of the Provincial Bank, arrived yesterday in town from Mr Napp's estancia in Las Flores. This esteemed gentleman has been enjoying a fortnight's vacation outside, and will resume his post in the Bank on Monday. Our public men should travel more: a trip down to Guamini, Puan, or some place at the back of God's speed, would do some politicians any amount of good.

The West Coast papers have discovered that Wednesday is a fatal day for the Peruvians. Poor Admiral Grau was killed on that day of the week: the Chilians took Tarapaca on the same day; the Huascar also changed hands on a Wednesday; in fact everything goes wrong in Peru every Wednesday, and the people would wipe the day out of the Calendar if they could.

We have to acknowledge with many thanks the receipt of a copy of the Treatise on Clinical Opthalmia recently published by Dr. Pedro F. Roberts. The gifted author stands first as an oculist in this country and his colleagues of the Faculty will find this book to be a most valuable addition to their shelves.

Musical people are smacking their lips in anticipation of the grand concert which the Quartette Society intend giving at the Colon Theatre on the 20th inst. The reunions of this Society always act as a magnet on the dilettanti circles of this city.

The news from Montevideo is still outwardly peaceable, but there is said to be much discontent and apprehension at the selection of the Gefes Politicos for the Departments, as, almost to a man, they are all followers of the drum, and soldiers are generally very bad statesmen, although Napoleon the Great and Col. Latorre are notable exceptions to the rule. The late Duke of Wellington, who knocked Napoleon and all his Marshals into cocked hats whenever he met them, cut but a poor figure in statesmanship. Soldiers, still more than cobblers, should stick to their trade,

The Republicans in France are 'sticking to it.' Having abolished the Jesuits with a stroke of the pen, they are now determined to turn the magnificent Regalia of their country into money, and there seems but little chance of this profanation being prevented. The Crown Jewels of France are amongst the most splendid in Europe.

Opera habitues are quite excited over a report that Patti and Nicolini are coming out here, to sing during the Exhibition. We cannot think it probable: but it is purely a question of money.

An old Spanish brass gun recently dug out of the barranca at San Isidro is now on Exhibition at the Minerva in Calle Florida: it was 90 years in the sand; and there is some idea amongst the Spanish residents that it would be a graceful thing to purchase it and send it as a present to King Alfonso. So it would.

The Rev. Mr. Schede, the highly esteemed German clergyman, will deliver a lecture on Tuesday evening next, at 8 o'clock, in the rooms of the Concordia Club, 523 Calle Cuyo, for the benefit of the Deutscher Hülfs-Verein. The subject will be Savonarola, the Prophet of Florence, a beautiful theme. Tickets, at $25 m|c. each, can be had at Mr. Nolte's book shop, or at the doors. All who understand Goethe's tongue are invited to attend this charitable reunion.

We take this opportunity to compliment Madame Mansilla Garcia on the two 'feuilletons' that lately appeared viz, Chinbru and Nika. Both 'feuilletons' are charming shining caprices, and display the literary talents of our Argentine Madame de Staël.

An evening paper publishes rather startling news about immigration into Corrientes. According to our colleague 300 Tiro Nacional immigrants have been landed in the province of Corrientes. The province will gain by the immigration.

The Lunacy returns show that the number of people who go 'off their heads' in Buenos Ayres shows no diminution. Last month 21 people were sent to Bedlam. There were 51 marriages in March.

Note.—This is the third of these matches; the first was played in Rosario on the 29th and 30th of March, 1877, and resulted in a draw in favour of the Rosario team; the second was played in Buenos Ayres on the 19th and 20th of April, 1878, when the Rosario eleven were beaten in one innings, and the third resulted, as will be seen, in favour of the Rosario Club, by eight wickets.

The gold market ruled very firm to-day at 30.55 cash, and 30.65 for end of the month, though it was very plain that the bulk of the time bargains were for account of political operators; afternours rumours of disturbances in the provinces created uneasiness and prices advanced to 30.60 cash, and 30,75 for 30th April, buyers. The only check to the operators for a rise was the news that Dr Lopez will on Monday resume his seat at the board of the Provincial Bank.

Exchange rather firmer, though little done at 49⅜ to 49½ on London, 5.24 Antwerp, on Montevideo ¼.

Cedulas recovered the slight fall of yesterday, several sales cash at 84⅜ to 84½; great interest is taken in the project to mortgage Municipal property, but it is not unusual in the Bolsa to notice that superior information is tantamount to superior losses.

Discounts easy for first class commercial pagares, but other paper is more difficult to place, both National and Provincial Government bills freely offered; gold pagares 6 to 7 per cent.

National Bank Shares declined under the adverse political news 67½ cash, 68⅜ for 30th April. Afterhours 700 shares sold at 68 for 30th April, and a sale mentioned of 300 at 67⅝ for same date, though there was doubt as to this last business.

Barley—New, at 60 and 80 per fan.

Advices received from Rosario this morning give the following:—
"Shipping intelligence—
"Very little wheat has been shipped to B. Aires within the week.
"Ships loading—
For Falmouth—Engl. barque Lancastra with bones and ash by Thompson & Sun.
For Rio Janeyro—Span. brig Juliana with hay.
For Falmouth—Ital. barque Volturno with bones and ash.
For Santos—Span. barque Obdulia with hay.
For Boston—Amer. barque Rebecca Crowell with wool and hides.
For Liverpool—Steamer Rosse with assorted cargo, copper and minerals.
For B. Aires—Eight schooner loads of potatoes.
"Some 2,000 bags of flour have been received from the Andine provinces during the week.
"The s.s. Pliny is expected here to-day she brings a very varied assortment of goods for this market, amongst which are 320 boxes of German beer. Almost the only English beer sold in Rosario is the Bass and the Dublin Stout imported by Messrs Parry & Co. of your city."

The suggestion of the *Comercio* as to the introduction of the Money Order System at the Post Office Department is generally approved of, and it is hoped the authorities at the Argentine St. Martin's Le Grand will take it up. The 'shave' which bankers exact on small drafts is very heavy on the remitter, and such a vast number of small drafts are sent to Europe annually that the step proposed would, if adopted, soon prove a good source of revenue to the Post Office; a large business would also spring up with the Interior.

A small parcel of Entre Rios wool was sold yesterday at the splendid price of 150.

The close of the busy season has rendered paper money more abundant, and it is daily becoming in larger supply both with the banks and private discounters. Coupled with the red heat of politics, this will help to keep the premium on gold where it is till the elections are over.

There is some complaint of want of formality at the Credit Office when Bonds are deposited previous to the payment of interest and amortization. It appears that no receipt is given and this might easily lead to hands being returned to the wrong party. Doubtless, the attentive Chief of the office will take a note of this.

On Monday next Dr V F Lopez, the talented President of the Provincial Bank, will resume his place at the Board; he returned yesterday from a fortnight's visit to Mr Napp at his fine estancia at Las Flores.

The auction of cattle, sheep and horses to be held to-morrow (Sunday) at the San Martin estancia, Cañuelas, by Messrs Baltar & Quesada, is a most important one. The cattle and sheep are of the best, and it is a splendid chance for farmers. Parties going from town must take the first train on either the Southern or Western Railway, and alight either at Barsaco or Moron.

The Orenciquas brought out two French engineers to scientifically survey the Cunapiru mine. Some people were under the impression that all the surveying had been done long ago, and the mine was at work, and consignment of nuggets daily expected.

The Massone's cargo of bones had to be transhipped at Rosario, that vessel being found to be quite unseaworthy and unfit to face a voyage to Europe.

The National Government has now under consideration a proposal by Don Diego Wilkes, to start a line of steamers between this port and Europe, carrying the Argentine mails under the Argentine flag, and training on board a certain number of Argentines as sailors and officers. Mr Wilkes asks for no subsidy, but a concession for 40 years, with packet privileges and exemption from Lighthouse and Health dues. As all his steamers are to be of 2,500 tons burden, and he intends to have no fewer than 36 of them, it will be seen that Mr Wilkes's undertaking is a somewhat formidable one, considering the competition from the existing lines.

An important sale of Cordoba cattle by Mr Huss, the well known salesmaster, is reported 13,700 cows at ...; 1,000 bullocks at 555, and 500 at 525, all delivered on the frontier of B. Aires. The Interior is now being ransacked for cattle for all the new estancias, but the supply is said to equal the demand.

The news that the Custom House receipts at Montevideo rose to 328,000 National Dollars in March is looked on by some as a sign of a letup in things down there; but it is a mere flash in the pan, caused by the rumour that the Finance Minister intended to raise the duties. High duties or low duties seem to be all one to Banda Oriental trade, which appears to be a limited quantity and incapable of expansion under any stimulant, however strong.

Mr G J. van Oppen, shipbroker of Rosario in his circular for the mail gives the following export from Rosario from 1st March to 1st April, 1880:—
23,054 dry ox and cow hides.
3,427 bales wool
276 bales sundries
145 bales hair
854 tons bones
37 tons bone-ash
10 mil horns
896 bales hay

Charters—
Juliana to load in port for Rio Janeyro hay, 2½ $f. per bale.
Porvenir do do do 3 $f. do
Obdulia do do do 3½ $f. do
Ceres do do do 2½ $f. do
Mina Helena do do do 2¾ $f. do
Volturno do f. o. crushed bones, 23s 6d in full.
Liberata do do do 22s 6d in full.
Lancastria do do do 23s in full.

Freights—
Since my last a remarkable fall in freights by sailing vessels has taken place, principally due to the arrival of handy vessels in Buenos Aires and the scarcity of freight in that market. Export has been very dull; with the exception of a few hay and bone charters nothing has been done.

Note—Although the Italian barque Massoni was cleared on the 3rd ult. she has not yet sailed on account of her having sprung a leak. The cargo of the steamer Rosse, sailed yesterday, will appear in my next.

CONCENTRATED JEYES' PERFECT PURIFIER TRADE MARK

Copy of Analysis by Professor Kyle.

National College, Buenos Ayres, November 29th 1879.

Messrs. M. Forrester & Co., Buenos Ayres.

Gentlemen—I have at your request made a careful examination of the sample of JEYES'S SHEEP DIP you handed to me on the 18th inst. I find it to be a well made preparation of Phenols and other Tar products, combined with soap, retaining the liquid form and easily mixible with water, from which it does not afterwards separate.

The proportion of active ingredients amounts to rather over 30 per cent. It is free from Mineral Poisons and from Caustic Alkalies. In my opinion it is well worth the attention of Sheepfarmers, and will be found by them to be convenient, safe, and I do not doubt, very efficacious as a Sheep Dip. From the readiness with which the preparation can be mixed with cold water it ought to prove most acceptable as a domestic disinfectant, being more convenient than crude Carbolic Acid or the disinfectant powders so frequently employed.

I am, Gentlemen, your obedient servant,
JOHN J. J. KYLE, Professor of Chemistry.

Extracts from Testimonials

From Mr. Alex. Stewart, Bailiff to H. D. Pochin, Esq. Rodnent Hall, Wales—

"The Sheep Dip is the best that I have ever used. I have not seen a single Maggot on any of the Sheep since we used it. The wool looks beautiful, and to all appearance improved in quality. I feel satisfied it will be an invaluable boon to our large Sheepfarmers in the Colonies, and it only wants to be appreciated."

La magnifica Estancia en el partido de Rojas

CON AGUADA PERMANENTE

Conocida por

LAS TRES FLORES

Campos de condiciones inmejorables

2 leguas y 689 mlc. de otra.

A 5 leguas del Pergamino y 6 de Rojas

En nuestra casa San Martin 51.

Base de venta 400,000 ps. legua

El Viernes 14 de Abril, a las 4 de la tarde procederemos a la venta de 2 leguas y 689 mls de legua de campo superior, situado en el partido de Rojas, conocido bajo el nombre de Las 3 Flores.

Este campo, perfectamente situado, quedando a 6 leguas del pueblo de Rojas y a 5 del pueblo de Pergamino, es de inmenso porvenir, pues el ferro carril al Pergamino quedara terminado a fines de este año.

Esta magnifica estancia tiene todo su frente al rio de Rojas y linda con los antiguos campos de Llavallol, hoy de E. Casey, con el ejido del pueblo de Colon, Dr M Porcel de Peralta, con D Octavio de la Barra y otros, y por el otro costado con D Adolfo Sierra y Unzue. Esta señalado en el registro grafico con el nombre de Indalecio Sarle.

Las condiciones generales de este campo son superiores por sus buenos partos, pues es aparente no solo para vacas sino que admite bien un numero regular de ovejas.

La base fijada como base de venta es infima en relacion a la calidad del campo, su posicion, sus condiciones ventajosas y de los precios obtenidos por campos inmediatos al que ofrecemos.

Para aquellos que empleen capitales en campos les recordaremos la reciente venta de tierras publicas, unas en el partido de Tres Arroyos, inmediato al arroyo Pillanuico Grande por el precio de $ 20,000 legua, y otra en el partido de Bolivar a 340,000 id. Esto es exacto ademas es menester tener presente la diferencia de inmediacion con centros importantes.

Por planos y datos sobre estos campos a nuestra casa San Martin 51.

Las personas de la campaña pueden solicitarlo por carta y sera inmediatamente remitida.
